Southington Jany 9th 1816 —

Dear Sister

I write you a few days since, giving you information as I could, respecting Money advanced for you & Deacn Strong. — In that Letter I mentioned that I intended to see you the 1st sleighing. — Had nothing occurred to me, I should probably have been with you the last evening. — I write now that you may not be expecting me very soon, if at all. — By a fall last Thursday, occasioned by Ice, I got a violent strain of my left Leg, so that I have not been able to walk since. — I begin now to hobble a little; but I am fearful that it will not be soon well. —— My family are all well excepting as above — Edward is at College — Geo. is keeping school at Waterbury — Chauncey goes to school in this Town — Elizabeth is at home. — Please to give our Respects to Dear brother & his family — And may God keep you & be gracious to you — Your affec. Brother
